

**INPATIENT ONLY GUIDE 2024
FOR SPINE PROCEDURE**

CPT Code	Description	PT-Type	Short description
CERVICAL			
22600	Arthrodesis, posterior or posterolateral technique, single interspace; cervical below C2 segment	Inpatient only	Arthrodesis, posterior or posterolateral technique, single level
63081	Vertebral corpectomy (vertebral body resection), partial or complete, anterior approach with decompression of spinal cord and/or nerve root(s), cervical, single segment	Inpatient only	Remove vert body dcmprn crvl, Partial: At least one-half of the cervical vertebral body
+63082	Cervical, each additional segment (list separately in addition to code for primary procedure)	Inpatient only	Remove vertebral body add-on
THORACIC			
22610	Arthrodesis, posterior or posterolateral technique, single interspace; thoracic (with lateral transverse technique, when performed)	Inpatient only	Posterior, Posterolateral or Lateral Transverse Process Technique Arthrodesis Procedures on the Spine (Vertebral Column)
LUMBAR			
SPINAL INSTRUMENTATION			
+22843	7 to 12 Vertebral segments (list separately in addition to primary procedure)	Inpatient only	Insert spine fixation device
+22844	13 or more Vertebral segments (list separately to primary procedure)	Inpatient only	Insert spine fixation device
+22846	4 to 7 Vertebral segments (list separately in addition to primary procedure)	Inpatient only	Insert spine fixation device
+22847	8 or more Vertebral segments (list separately in addition to primary procedure)	Inpatient only	Insert spine fixation device
22849	Reinsertion of spinal fixation device	Inpatient only	Spinal Instrumentation Procedures
22850	Removal of posterior nonsegmental instrumentation (e.g., Harrington rod)	Inpatient only	
22852	Removal of posterior segmental instrumentation	Inpatient only
